

**Widening the Welcome: Inclusion of All
Thursday, September 23-Saturday 25, 2010
(Sunday, September 26, extra optional day)**

*This first national gathering is hosted by
the UCC Mental Illness Network and
the UCC Disabilities Ministries!*

CONFERENCE PROGRAM

Welcome!

We are glad that you are here.

It has been our passion and commitment to bring together a stellar group of leaders to engage us in learning about why faith communities are called to be widening their welcome and in sharing experiences with how to make that inclusion happen. The invitations are to develop or expand your own Mental Health Ministry and continue on the journey to becoming an A2A, Accessible to All, church.

There will be support for all who are working on these goals. While many of us are solo voices in our community, we hope our voices will grow stronger as we find more colleagues to be with on the journey of inclusion, especially for and with those who have been on the margins of their church's life.

We pray that through your own journaling, devotions and worship, engaging in your core group, and being open to those serendipitous conversations through these days, you will experience many blessings, and that you will continue to be a blessing to others in your ministry.

Strangers, people different from us, stir up fear, discomfort, suspicion and hostility. They make us lose our sense of security just by being "other." Only when we fully claim that God loves us in an unconditional way and look at "those other persons" as equally loved can we begin to discover that the great variety in humanity is an expression of the immense richness of God's heart. Then the need to prejudice people can gradually disappear.—Henri Nouwen

The Beginnings of the UCC Disabilities Ministries and the UCC Mental Illness Network

United Church of Christ Disabilities Ministries

The Reverend Virginia Kreyer has lived with severe cerebral palsy since birth. She knows firsthand about the needs, desires, and frustrations of persons with disabilities and their families. In her early teens, she decided to enter Christian work as her way to help make the world a better place in which to live. On November 9, 1971, Reverend Kreyer started the first Task Force on Disabilities in the New York Metropolitan Association, becoming the foreparent other of the disabilities ministries movement. As Consultant for

Persons with Disabilities, she traveled over the country working with churches to educate about the needs and gifts of persons with disabilities.

“We finally have come to understand,” Virginia Kreyer said, “that we cannot be an inclusive church unless all people, regardless of their disability, color of their skin, or national origin are welcome in Christ’s Church. Let us give thanks for our individual uniqueness and for Christ who binds Christians together as different pieces of cloth are brought together to make a quilt.”

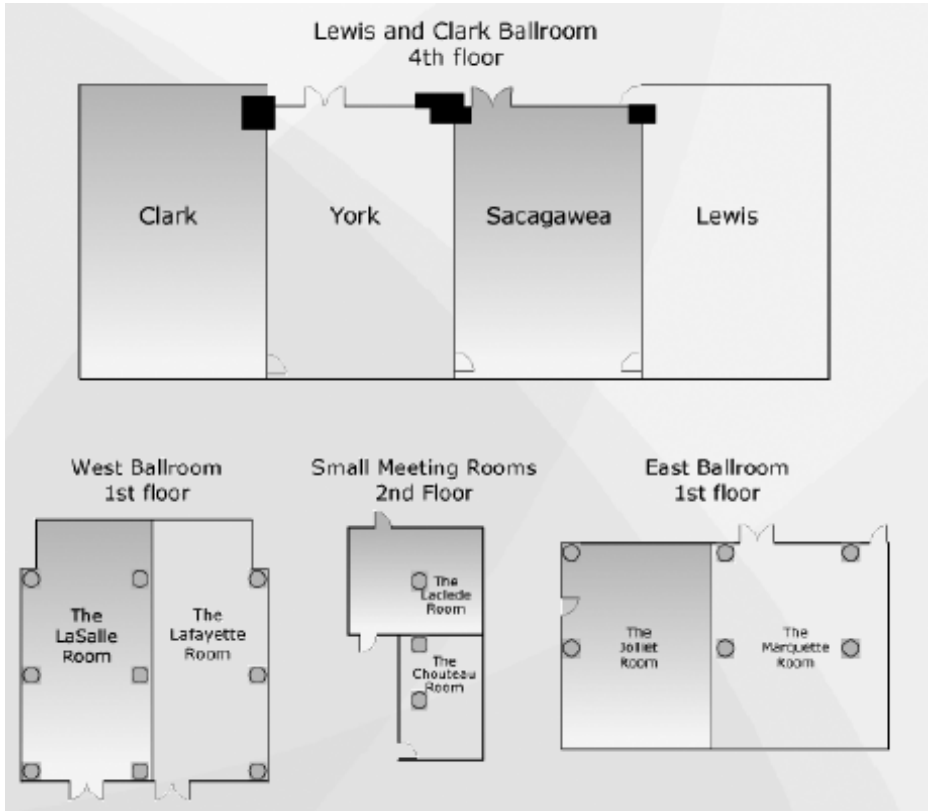

The Rev. Harold H. Wilke, also foreparent of UCC Disabilities Ministries, was a devoted minister, advocate for persons with disabilities, and pioneer. He was one of the first Americans with a serious disability to serve as a parish minister. His exemplary ministry within the UCC and the world forged a path for leaders with disabilities to emerge. Following the signing into law of the Americans with Disabilities Act on July 26, 1990, President George H.W. Bush passed the signing pen to Dr. Wilke, who accepted it with his foot — because he was born without arms. Harold Wilke was noted for his unique role in delivering the blessing at the White House. “Move [us],” he said in the blessing prayer, “to discard those old beliefs and attitudes that limit and diminish those among us with disabilities.”

UCC Mental Illness Network

In 1992 the Mental Illness Network began with a grant from the then American Missionary Association of the United Church of Christ through the work of Nanette Roberts. She asked Bob Dell and Ellen Hiatt: 1) to have an exhibit at the 1993 General Synod, St Louis, and 2) to start a newsletter. We began as a response to the need for families and others to communicate among themselves about their experiences as families. It was not long before Norma and Jim Mengel, and Bryan Crousore came on board. Norma became Treasurer, and Bryan, as editor became an excellent voice for articles in the United Church News. Sharon Crousore was most valuable at Synod exhibits with her powerful way of engaging people in talk about mental illness. The Web site was one of the first to be developed and was accomplished through the volunteer work of our competent Web master, Alan Harris. The network relied upon Pathways to Promise for resources which local congregations could use. The first “Annual Gathering” as it was called was held just prior to the 1991 Synod. From the beginning the Network has been in partnership with UCC Disabilities Ministries.

At the 1999 Synod a significant resolution was passed. For the most part, this was due to the efforts of Norma Mengel as principal author, and who worked tirelessly to bring it through the resolution process and to the floor for vote. The resolution was entitled: “Calling the People of God to Justice for Persons with Serious Mental Illnesses (Brain Disorders)”.
